

LINEABOX: innovation and design for a completely versatile drawer

The new and innovative metal drawer system of the future incorporates many distinguishing features make it a unique and unparalleled drawer. Clean, simple lines with minimal wall thickness to maximize internal space, the slim 9mm wall thickness makes Lineabox one of the thinnest drawers ever.

It is available in 3 different heights and can be 3 sided in metal or also 2 sided with the drawer back made of wood. Streamlined aesthetics uncluttered with holes or assembly components allow the Lineabox to be very versatile and highly customisable. Assembly is rapid without the need for machines or templates.

A light and thin drawer, suitable for all applications including: kitchens, living rooms, bathrooms and office furniture. It can be also used as sink waste cut-out drawer, under-sink drawer and in pull-out column units.

Fluid, silent and progressive sliding movement, thanks to Futura full-extension runners.

ITEM CODE:

LBS-XXX-YY-50-30 (Soft Close)

LBP-XXX-YY-50-30 (Push)

LBU-XXX-YY-50-30 (Soft Close with Push)
